## Blue Devils Start '60 Foot Ball Work

Coach Web Pell called for the start of pre-season football training for the Pahokee High Blue Devils on Monday of this week. Conditioning exercises will be the order of the day until next Wednesday, Aug. 24, when the squad will begin wearing pads and buckle down to the hard work of body contact in scrimmage play.

The Blue Devils opening game will be played at Riviera Beach on Friday, Sept. 23. Pahokee is continuing this season as a member of the re-organized Suncoast Conference which includes five schools from the East Coast and three from the Lake Okechobee area. The eight schools in the conference are Fort Pierce, Riviera Beach, Stuart, Lake Worth, Seacrest, Pahokee, Belle Glade and Clewiston.

Returning lettermen for the Blue Devils this year include Doug Blanton, Denny Padgett, Curtis Russom, Claud Morgan, John Hundley and Mike Wilson, according to Coach Pell. Coach Bill Howard will again assist Pell in shaping up the Blue Devil line and Coach Bob Maxson will also help with the training, replacing Carney Wilder who has been transferred to an East Coast school.

Pahokee High School has one of the smallest enrollments of students of any of the schools in the Suncoast Conference. Consequently, Coach Pell faces each year the problem of getting enough players on his football squad to build up a team with a ample reserve strength. Last year he was handicapped in his training program by having to work with a very small squad, there being at times only 18 players on the practice field—not enough for scrimmage play. Pell is hoping for a good turnout of candidates for the Blue Devil team this season.

## Active Duty For Teachers To Start

Faculty members of Pahokee and Canal Point Schools, as well as other public schools in Palm Beach County, will begin their active duties for the new school year on Wednesday, Aug. 24, with attendance to a series of pre-school planning conferences, some to be held at their home schools and others out of town.

Pre-school registration of students will take place Thursday, Sept. 1, and regular classroom sessions will start the first day after Labor Day, Tuesday, Sept. 6, according to Brooks Henderson, principal of Pahokee Schools.

### ATTEND WEDDING

Mrs. Ollie Batchelor and Mrs. Rosa Curley of West Palm Beach have returned from Goodlettsville, Tenn., where they attended the wedding of Mrs. Curley's daughter, Miss Melba Curley, to Harold Hooper, which took place at Goodlettsville on Aug. 5 at 8 p. m., in the Baptist Church. The bride is a former Pahokee resident. Mr. and Mrs. Hooper are making their home in Goodlettsville where he is engaged in carpentry.

## Cabinet Purchases Radio Equipment

TALLAHASSEE — The state cabinet recently approved purchase of \$13,755 worth of equipment from Radio Corp. of America for the new University of South Florida at Tampa. The equipment will be used in a language laboratory.

Gov. Collins was curious why the electronics age had invaded the study of languages. G. O. Jones of the board of control business staff explained the equipment included tape recorders, earphones and other electronic devices.

Seems it's a new concept in teaching languages, but no one could explain just how it would be done.

## Cancer Society To Continue Its Work

Twenty-seven county units of the Florida Division of the American Cancer Society will continue cancer education and fund-raising campaigns through the month of August. The extended Crusades have been made to assure raising the \$800,000 fund, necessary for conducting next year's programs.

The report further pointed out that the Society's volunteer lay and physician Board of Directors have indicated that the fund will again be allocated to support specific programs which are best suited for control procedures.

Public Education programs will be conducted state-wide to further alert the general public to the threat of cancer—and what to do about it. Through the cooperation of volunteer physician, film showings will be offered and educational literature distributed without cost or obligation—to the public organizations, firms and industries, schools, colleges and other groups. Professional information will again be distributed to the medical and dental professions, providing literature on cancer and reports of developments in diagnosis and treatment of the disease.

Scientific Research will continue to seek causes, cures and prevention of cancer. Qualified allotments will be established for project, program and institutional grants; issuance of special scholarships; trainee and research contracts.

Patient Services are provided persons with cancer who require comfort and certain needs. Medical dressings are available in most County Units. Other Units provide beds, wheel chairs and various other necessities.

Complete plans for Florida's 1961 cancer control projects will be formulated at the Annual Division Meeting of the Society to be held in Ft. Lauderdale in October. More than two hundred volunteer ACS officers and directors will attend the meeting.

Mr. and Mrs. J. H. Bordeaux were recent guests of their nephew and niece in Fort Lauderdale.

## Lofcoop Barbecues Another Success

The Lake Okechobee Farmers Cooperative at the annual membership meeting held in the Community Building at the Glades Park elected A. C. Hitchcock and J. W. Repper new directors with three-year terms of office each. They succeeded A. R. Harrington and J. Hilton Jones whose terms of office had expired.

The board of directors in a special session reorganized for the coming year, choosing Floyd Erickson, president; J. F. Waddell, vice-president; and J. W. Repper, secretary-treasurer. The board retained Edmund Thomas, who is spending the summer with his family at King's Ferry, N. Y., as general manager in charge of sales.

Prior to the election LOFC members were hosts at a barbecue dinner for their families and other guests. Approximately 100 persons attended the barbecue which was under the direction of Harold Webb, Jr., and his committee.

Out-of-town guests were M. U. Mounts, Mary Todd, Mrs. Elizabeth Pierce, Mrs. Miriam LePinto, J. Alex Arnette, Mr. and Mrs. John H. Causey, and son, John, Jr., George Cappe and son, Roger, and A. M. Kirpatrick, all of West Palm Beach; A. M. Petti, Gainesville; Harold Brewer, Boynton Beach; Mr. and Mrs. R. E. Hotard and daughter, Janet, Mr. and Mrs. H. Keniston and Carl Waggoner, all of Belle Glade; Mr. and Mrs. C. B. Willis and family, Mr. and Mrs. Howard Holman, Mr. and Mrs. R. B. Simonson and Thadde Whidden, all of Pahokee.

Also special guests were County Commission Chairman and Mrs. Paul Rardin, Mr. and Mrs. W. Z. McCall and family, Mr. and Mrs. W. E. Blackwell and family, the Rev. Charles D. Stewart, and FFA Members Renzo Echols, Ralph Jones, Mike Maxson and Warren Repper, all of Canal Point.

## Exercises Close Methodist School

Closing exercises for the two weeks' vacation Bible School at the Pahokee First Methodist Church will be held this Friday evening in the social hall of the church, starting at 7:30 o'clock.

Children of each of the three departments, kindergarten, primary and junior, will present a brief program, with each department allotted 12 minutes for the presentation of its part of the program.

Following the program there will be a period of fellowship during which refreshments will be served by members of the Woman's Society of Christian Service. This will be followed by an open house with the teachers and pupils of the school acting as hosts. During the open house visitors will be invited to inspect the work done by the children, which will be on display. Mrs. F. S. (Dick) Parrish was director of the school which had an enrollment of 35 children.

Police Chief and Mrs. Leon Guthrie have returned home after spending a week at Fort Myers Beach.

## Odham Accepts As Milk Board Head

TALLAHASSEE — J. Brailley Odham has accepted a new four-year term as chairman of the Florida Milk Commission, but the term is expected to last only four months instead.

Odham said he will resign when a new governor takes over next January.

The commissioner said he told Democratic nominee for governor C. Farris Bryant, during the Democratic convention in Los Angeles that he would step down when Bryant takes office. Odham supported State Sen. Doyle Carlton, Jr., in the recent campaign.

## Health Agencies To Meet Aug. 23-24

GAINESVILLE — Representatives of twelve voluntary health agencies in the state will meet August 23-24 at the University of Florida for a mutual exchange of organizational patterns, programs and methods of reaching agency goals.

The meeting is a two-day institute sponsored by the Florida Coordinating Committee of National Voluntary Health Agencies, the University of Florida and the General Extension Division of Florida.

David V. Legate, coordinator of rehabilitation programs for the Extension Division, said that each agency has been requested to present a report on its statewide activities and goals.

Among the groups listed by Legate as institute participants are the Florida Division, Inc. of the American Cancer Society; Florida Chapter, Arthritis and Rheumatism Foundation; Florida Council for Retarded Children; Florida Heart Association, Inc.; Florida Mental Health Association; Florida Society for Crippled Children and Adults; Florida Society for the Prevention of Blindness, Inc.; and the Florida TB and Health Association.

Other agencies he named were the Muscular Dystrophy Association of America, Inc.; The National Foundation; National Multiple Sclerosis Society; and the United Cerebral Palsy of Florida.

The institute is the first program of a long-range in-service training plan for the staff of agencies and selected volunteers, Legate said.

## Bible School To Close Friday

This Friday is the last day of the vacation Bible School being conducted at the Canal Point Missionary Baptist Church this week, with classes daily from 8 to 11 a. m.

The Rev. Charles D. Stewart, pastor, is serving as principal of the school. Department superintendents are Mrs. J. S. Atkins, junior; Mrs. Charles D. Stewart, primary; and Mrs. D. P. Hughes, beginners.

S. A. Nall of St. Petersburg has joined his wife at Canal Point where they are moving into their new home.

## A&W Group Leases 2921 Acres At \$37

The Cabinet trustees of the Internal Improvement Fund Aug. 9, leased 2,921 acres of rich Everglades farmland to a cooperative headed by Robert Apelgren and Edgar Wilder of Pahokee for \$37 an acre for 15 years.

The transaction will bring the state \$108,077 a year or \$1,621,155 over the life of the lease. It is one of the richest leases ever negotiated by the state for stateowned lands.

The land for the past 25 years has been leased to Richlands, Inc., a big farming concern, for about \$4 an acre.

Representatives of Richlands engaged in spirited bidding with Apelgren and Wilder but bowed out when the bidding hit \$37 an acre.

Last week Apelgren told the trustees a group he was associated with was getting ready to go into sugar production. Richlands has been growing truck crops on the acreage located near Pelican Bay.

The trustees last week rejected an offer by the U. S. Sugar Corp. to purchase 2,381 acres of the tract for \$433 an acre, or more than one million dollars.

The recent cutback in the Cuban sugar quota has brought new activity in Florida to step up domestic production.

The acreage bid on Tuesday included 540 acres heretofore withdrawn for to other public use—55 acres for the city of Pahokee, 75 acres for Palm Beach County Airport extension; 195 acres for Palm Beach County Airport industrial area, and 215 acres of public purposes on request of the city of Belle Glade.

These 540 acres were made subject to a one-year cancellation clause.

## Sunbeam Camp Held This Week

A Baptist Sunbeam Day Camp was held in the Community Building at Community Park in Canal Point on Thursday of this week (Aug. 18) from 10 a. m. to 2 p. m. under the sponsorship of the Palm-Lake Association.

The Rev. Charles D. Stewart of Canal Point was camp pastor and the Sunbeam leader from the Green-aces Baptist Church served as director. In addition to mission study classes for the children, there were recreational and lunch periods at the camp. Churches represented included Belle Glade, Canal Point, Pahokee, Northwood and First Baptist in West Palm Beach, Riviera, Jupiter, Green Acres, Haverhill, West Gate, Loxahatchee, Lantana, Hopuloxo and Boynton Beach, as well as all missions in the area.

Economic experts say the boom at Cape Canaveral is maturing because of a leveling off of military growth. The Air Force and missile center now provides 18,000 civilian and military jobs, with the total expected to reach 20,000 within two years.

## Charcoal Is Good For Many Uses

Safety suggestions for kindling an using Charcoal which has become so popular for outdoor cookery, are offered by Extension specialists in several States.

Charcoal, now sold in lumps or briquets in many grocery and garden

supply stores, is a convenient fuel for barbecues, grills, picnics and campfire cooking. But safety measures are required for successful use.

Be sure to set up your grill or dig the barbecue pit in an open place, well away from buildings, trees, dry leaves, grass or brush.

If you use a charcoal-lighting fluid be sure to use it according to directions. Soak a little into the briquets before lighting them, and be sure there is no liquid fuel that has not soaked in when you start the fire. Never use gasoline, paint thinner or any other highly combustible fluid to kindle charcoal.

Safest way to kindle charcoal is to use dry, crumpled paper, or a light substance like excelsior, under the pile of charcoal. Then simply light the paper as in starting an ordinary wood fire. It may take a little fanning to get the charcoal kindled. When you see grey or whitish spots around the edge of charcoal, this means that it is kindled. In 20 minutes or so it will be hot enough to grill.

The charcoal chef—and others who join in the cook-out—should wear heavy, fireproofed gloves both in building the fire and using it. A fire proof or fire resistant apron is a safeguard, too.

Florida extension specialists advise having on hand a sprinkling can full of water—one with a long spout preferred—to douse the fire in an emergency or when leaving the picnic site. They also suggest that cooking will be done more conveniently with long-handled forks, tongs, skewers, skillets and saucepans. It is easier too, if you have long-handled swabs or brushes for barbecue sauce.

## DON'T LET FATIGUE SET UP AN ACCIDENT

Things go wrong when you're "dog-tired". Reflexes slow down. Your mind isn't fully alert. Hands fumble. Feet trip over things. Eyes don't see possible dangers.

Homemakers—more than any other one group—are guilty of working when overtired. A perfect setup for an accident.

More than five million Americans are injured in their homes each year. Almost 20 percent of these accidents happen in kitchens. Some of them are caused by carelessness, disorder, and misuse of equipment. But fatigue plays a major role in most of them.

The solution: Take time out to rest just five minutes away from the job will lessen tension. Take a coffee break, phone your neighbor, knit on Johnny's sweater, or just relax in a comfortable chair or on the couch. You'll return to the job more alert and better prepared to work safely. You'll return to the job more alert and better prepared to work safely. You won't even miss the "time out"—you'll accomplish more after you rest.

Convention business has become one of Florida's top industries. The State Development Commission says convention delegates spent nearly 59 million dollars in Florida last year.

## Practice Safety And Enjoy Life On Farm

Most of us balk when we see or hear any kind of list of do's and don'ts regarding our daily lives. We consider our beliefs about living our personal property and we resent outsiders telling us how to live. "It's none of their business!" we complain.

Yet consider for a moment the number of strangers whose advice we listen to each day: bankers, doctors, machinery experts, newspaper columnists, lawyers, radio announcers—the list could go on forever. We're bombarded by advice all day long from a variety of experts. We might do well to heed some advice, such as the following.

According to President Eisenhower, who proclaimed July 24-30 as National Farm Safety Week, accidents, in addition to draining our nation's financial resources, "bring death, disability, suffering and hardship to thousands of farm people annually." Safety habits, therefore, are vitally needed if there are to be fewer deaths, and injuries, less expense, grief and suffering on the farm and a pro-

perous national economy.

Experts from the National Safety Council, which is cosponsoring Farm Safety Week with the U. S. Department of Agriculture, tell us we can enjoy life by practicing safety each day. They ask us to check our home electric and heating systems, to check and repair equipment, to keep children away from machinery and livestock. They warn us against falls resulting from hurry and unsafe ladders. They remind us that courtesy is the key to highway safety, and they suggest we do our best to improve roadway visibility.

They tell us to make sure all farm equipment is operating safely and to stop machines before unclogging, oiling or adjusting them. They urge us to be careful using potentially dangerous chemicals and to keep them out of reach of children.

We have a moral responsibility—we, our family and the people we deal with daily—to stay safe to enjoy life. Not a bad thought to keep in mind during National Farm Safety Week—and the rest of the year.

## Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### ***The Bonds you own are better than ever, too***

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

**You can save automatically.** Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

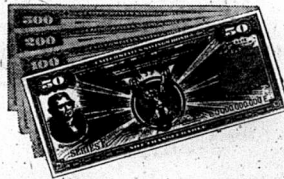

ber, the money you don't touch can't slip through your fingers.

**You can get your money, with interest, when you need it.** Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

**Your savings can't be lost or stolen.** The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

**You save more than money.** The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

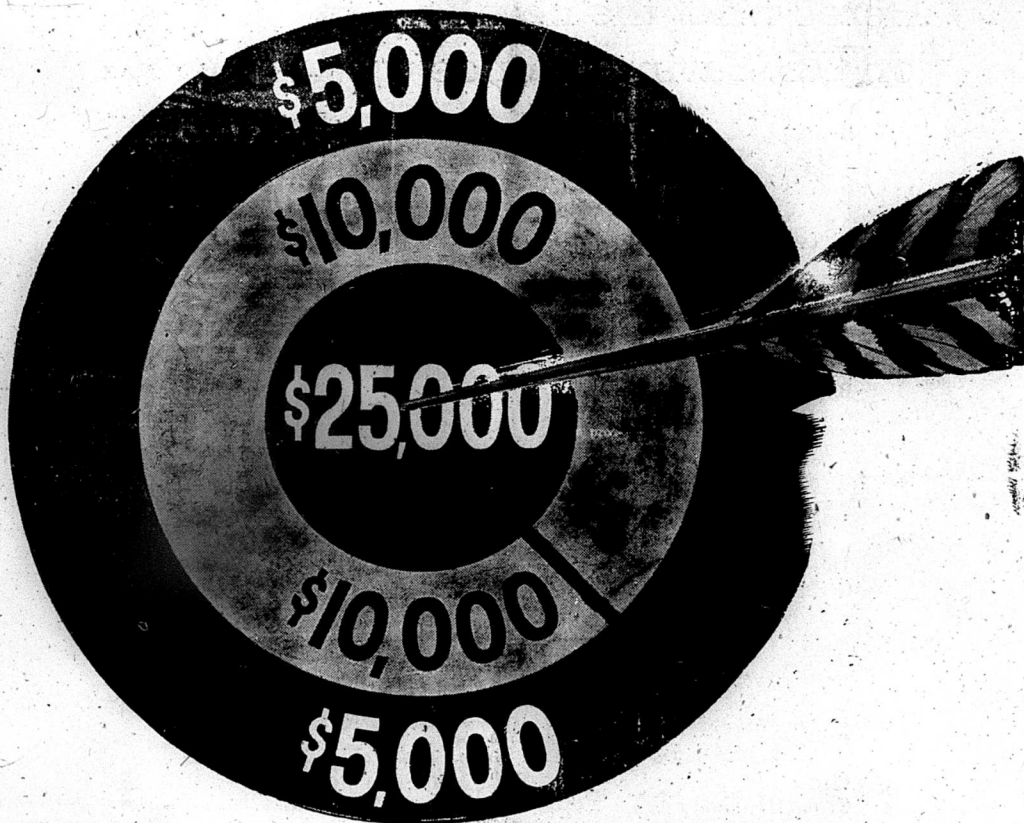

Start saving with U.S. Savings Bonds today. You'll save more than money.

*You save more than money*  
**with U.S. Savings Bonds**

**The Everglades News**

PAUL RARDIN, Publisher

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4446.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

**For the big things in your life, be ready with U. S. Savings Bonds**

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

### Christian Science Group Of Canal Point

The healing power of spiritual understanding will be explained at Christian Science churches Sunday in the Lesson-Sermon on "Mind", which concludes the current series devoted to synonyms for God.

Christ Jesus' response to the centurion who asked help for his palsied servant will be included in the Bible readings: "And Jesus said unto the centurion, Go thy way; and as thou hast believed, so be it done unto thee. And his servant was healed in the selfsame hour" (Matt. 8:13).

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following selection will be read (180:25): "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible. The only way to this living Truth, which heals the sick, is found in the Science of divine Mind as taught and demonstrated by Christ Jesus."

### Wildlife Potentials Would Be Proposed

A plan to make available nineteen choice sites in America's last great wildlife frontier, the Everglades, for sportsmen and recreational areas, is under study by the Central and Southern Florida Flood Control District's Governing Board.

The plan was prepared by the Florida Development Commission at the request of the FCD.

Development of these sites would be through the cooperation of such federal, State and local government agencies as the U. S. Fish and Wildlife Service, the Florida Game and Fresh Water Fish Commission, the State Road Department, and county commissions with the FCD assuming active leadership, the Development Commission recommends.

The plan was presented by Wallace H. Jones of the Florida Development Commission at the FCD's August Board meeting. Jones noted that the advent of the FCD with its development of vast water conservation areas in the midst of the marshy Everglades, together with its system of canals and levees, has made it possible "to utilize the southern interior of Florida for meeting recreational needs" for all Floridians and visitors to the State.

Jones told the FCD Board that their vast flood control and water conservation program is doing something "which nature lovers, sportsmen and recreation people generally have been recognizing for years — making available one of the greatest wilderness areas of the United States located within an hour's drive of one of the fastest growing metropolitan centers of the world."

The report adds that this represents a "challenge" for "government agencies to provide facilities that will meet the needs and desires of the public."

Thus, the FCD can provide the sites for development of boat ramps, picnic areas, access roads, sanitary and public health facilities, policing, and fishing facilities, including boat trails.

Vast areas of the grassy marches, however, would remain as sanctuaries for the many rare birds that inhabit the area, breeding grounds for water fowl, and wildlife, etc.

The Florida Game and Fresh Water Fish Commission and the U. S. Fish and Wildlife Service, presently manage the wildlife of the FCD's Conservation Areas.

## PERSONAL NEWS NOTES

Mr. and Mrs. L. M. Collins has returned from a week's visit with her sister, Mrs. H. F. Smith, at Orlando.

Mr. and Mrs. Hugh G. Miller, III, of Rockledge are expected to arrive in Pahokee today for a week-end visit with her parents, Mr. and Mrs. G. Bryan Ramey, and while here will attend the Stubbs-McIntosh wedding.

Mr. and Mrs. Grover Hackney, former Canal Point residents now living in St. Petersburg, visited friends here recently.

Mr. and Mrs. Russell Maxson had as guests the past week her brother and sister-in-law, Mr. and Mrs. J. C. Scroggins, of Starkeville, Miss. The Maxsons also had as recent guests Mr. and Mrs. J. B. Daniel of Village, Ark.

Mr. and Mrs. Leo Berry and children have returned to their home in Jackson, Miss., after a visit with Mr. and Mrs. Charles Maxson, in Canal Point.

Mr. and Mrs. J. P. Parker had as recent guests Mr. and Mrs. D. W. Hughes and daughter of Crossville, Ill.

Mrs. Wiley Tillis was accompanied home from a recent visit with relatives in Starke by her husband's mother, Mrs. C. H. Tillis.

Mrs. H. E. Miller, former Canal Point resident now living in West Palm Beach, was a recent guest here of Mr. and Mrs. F. W. Cross, Sr.

Mr. and Mrs. R. S. Singletary have as a guest his mother, Mrs. G. B. Singletary, of Thomasville, Ga.

Mrs. Johnny Christian and sons, Gene and Johnny Jr., accompanied by Mrs. Emma Lindon, have returned to their home in Savannah, Ga., after a visit with her husband's brother-in-law and sister, Mr. and Mrs. Walter Boatwright, in Pahokee.

Airman 3-c Joe Parker, who is stationed at Jacksonville, was a recent guest of his parents, Mr. and Mrs. J. P. Parker, in Canal Point.

Mr. and Mrs. J. S. Chastain left last week by plane for Philadelphia, Pa., to be with his brother, Anderson R. Chastain, who is a patient in a hospital in that city.

Col. W. S. Evans has returned from Russellville, Ky., where he was called recently by the death of his aunt, Miss Jessie Settle. Funeral services for Miss Settle were held there on Aug. 6.

Harold and Allen Jones have returned to Clewiston after a visit with their grandmother, Mrs. C. B. Jones, and uncle, Alton Jones, in Canal Point.

Mr. and Mrs. C. G. Willis and children, accompanied by her mother, Mrs. Gertrude Burney, have returned to Pahokee after spending several days at Key West and other points in the Florida Keys.

Mr. and Mrs. C. Britton and family were recent visitors in Orlando.

Mr. and Mrs. Marvin Crady and family are spending a vacation with her parents and other relatives at Hodgenville, Ky.

Miss Janette Harrington is attending the senior assembly of the Methodist Youth Fellowship at the Methodist Camp near Leesburg this week.

Miss Madeline Kelly, accompanied by Miss Betsy McDowell, has returned to her home in Fort Pierce after a week's visit with her brother-in-law and sister, Mr. and Mrs. J. V. Thomas, Jr., in Pahokee.

Bulldozers have started ripping out the center of Lincoln Road, Miami Beach, for construction of a Mall, a lavishly landscaped traffic-free shopping promenade.

## NEW WAY TO STOP HAND WEEDING IN VEGETABLES

**SPRAY VEGADEX AS YOU PLANT**

This new "chemical weeder" kills off tough grassy weeds as they sprout — practically ends all hand weeding in vegetables.

Use Vegadex to control weeds in Cabbage, Corn Snap Beans and Celery.

Vegadex kills off tough weeds like purslane, pigweed, chickweed, henbit, foxtails... and many more.

*Come in now... get your Vegadex and have it ready when you plant!*

**SALES EVERY MONDAY AT 1 p. m.**

**RURAL CIVIL DEFENSE** meeting in Henry County, Ind., takes place in the Prairie Township fire hall at Mt. Summit, Ind. Speaker is Robert D. Wolf, the county civil defense director, who has held similar meetings throughout the county. Civil

defense gatherings such as this are part of a nationwide rural civil defense program to teach persons how to survive nuclear attack and aid the nation's recovery efforts. Experts say any area could be affected by fallout. (OCDM Photo)

**'PARTY LINE'** for the nuclear age is this two-way radio, one of four control units in a radio warning network operated by the Henry County, Ind., civil defense organization. There are some 30 other units in the network, which exists primarily to warn the county's remotest rural population of tornadoes or nuclear attack. Residents of towns and cities would get the warning from siren systems. (OCDM Photo)

## Rural CD Active 'In the Field'

Residents of rural America's 5,000,000 farms are being urged by civil defense officials to plan now for their safety from nuclear attack as they consider ordinary hazards during Farm Safety Week, July 24-30.

Leo A. Hoegh, director of the Office of Civil and Defense Mobilization, points out that "the safety of the nation depends upon our farmers being prepared not only to reduce their human and property losses through accidents. They also should take the necessary steps to insure that if an

enemy ever attacks us with nuclear, biological, or chemical weapons, our farmers would know how to survive, recover, and produce the food and other products upon which victory would depend."

A broad rural public information program is now underway in 3,000 counties. It stresses the relatively simple methods by which people can develop their own self-protection against the fallout hazard of a nuclear attack—the principal threat to people who live in rural areas.

Family fallout shelters are urged as the least expensive and most effective means of saving the greatest number of people from a nuclear attack. Shelters would be highly effective to protect families against tornadoes. All shelters should be equipped with a two-week supply of food and water, a battery radio, first aid kit, flashlights, bedding and other survival items, according to OCDM.

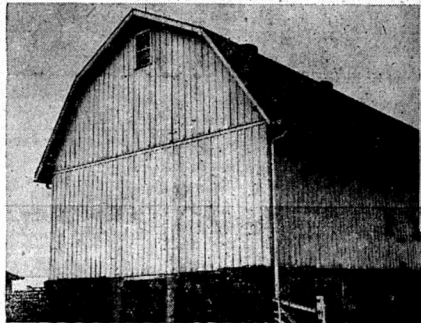

Family fallout shelters cost as little as \$150.00 when constructed on a do-it-yourself ba-

sis. When built by contractors, the cost ranges from \$500.00 upwards.

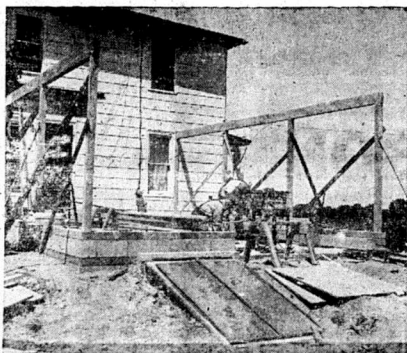

Precautionary reinforcement of barns and outbuildings can lessen the hazards of fallout on livestock. The more massive the materials between livestock and fallout, the less radiation will come through to injure or kill the animals. Steel and concrete are good shielding materials from fallout. Earth costs nothing and also is effective for shielding. Even bales of straw or wood, if thick enough, can keep out

most radiation.

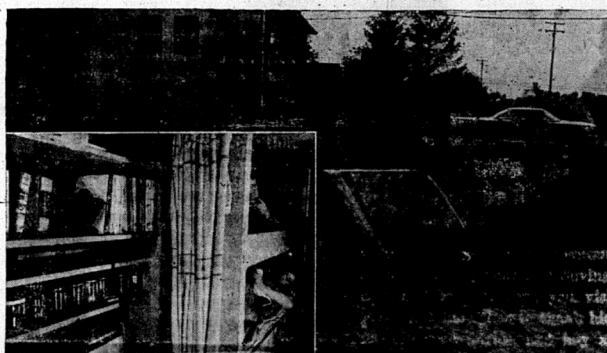

Detailed information on shelters, treatment of fallout-contaminated soils, what fallout-contaminated foods could be eaten and how they should be prepared, and other survival information is now available to rural Americans through public meetings sponsored by county civil defense directors. Printed material also is available from county directors or by writing to the OCDM Rural Activities Office, Battle Creek, Mich.

Shelter for livestock for protection against fallout was improvised in this barn by using bales of straw as a shield against potentially deadly "post-attack" radiation. Heavy concrete walls, with straw shielding windows, would protect livestock in pens on the barn's lower floor. Barn's upper floor (right) would be covered four bales deep directly above the pens. A shielded room for caretakers, and tractor-powered feed grinder and automatic feeder complete the shelter. (OCDM Photo)

**DUAL PURPOSE** fallout shelter and carport-patio is shown under construction at the farm of John Holden near Hickory Corners, Mich. The shelter, to be used also for food storage, cost \$1,200. With the carport and patio now being added, the cost totaled \$1,300. Holden's family of three, and eight neighbors, gave the shelter a realistic workout recently when a small tornado struck nearby. An entrance to the shelter is in the foreground. (OCDM Photo)

**FALLOUT SHELTER** built by Louis Severance adjacent to his home near Akron, Mich., includes a special ventilation and escape hatch (right), an entrance to his basement, tiny kitchen, running water, sanitary facilities, and a sleeping and living area (inset) for the family of four. The shelter cost

about \$1,000. It has a 10-inch reinforced concrete ceiling with thick earth cover, and concrete walls. Severance says, "Ever since I was convinced what damage H-bombs can do, I've wanted to build the shelter. Just as with my chicken farm, when there's a need I build it." (OCDM Photo)

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{2}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{4}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $\frac{1}{4}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## Personal

Mrs. Susan Wilson and son, Vann, spending a vacation with friends and relatives in Mississippi and Louisiana.

Mr. and Mrs. D. W. Cunningham, accompanied by their daughter, Miss Judy Cunningham, and Mrs. Cunningham's mother, Mrs. W. R. Enecks, left this week for a visit with relatives in Statesboro, Ga. Before returning home they will go to Ridgcrest, N. C., where they will be joined by their son, Harry, who has been attending a summer camp there.

McKinley Ridenour is visiting his aunt, Mrs. Cleo Nelson, and family at Lake City, Tenn.

Malinda and Phoebe Jean Mills, small daughters of Mr. and Mrs. George Mills, have returned to their home in Pahokee after a two weeks' visit with their grandparents, Mr. and Mrs. Roscoe Williams, at Homestead.

Miss Connie Singletary has returned from Thomasville, Ga., where she was the guest of her cousin, Miss Diann Hurst.

## Coffee Compliments Annette McIntosh

Mrs. E. L. Pope, Sr., and Mrs. E. L. Pope, Jr., entertained at the former's home, 2497 Bacom Point Road, on Saturday from 10 a. m. to 12 noon with a coffee in compliment to Miss Ruth Annette McIntosh, bride-elect of Sidney Alton Stubbs, Jr.

Mr. and Mrs. L. Minter Collins will entertain this Friday evening with a buffet supper honoring Miss McIntosh and Mr. Stubbs, with members of the bridal party, the reception hostesses and intimate friends of the couple to attend as guests.

Mrs. Paul Rardin and Mrs. M. P. Stanley will entertain at the Rardin home in Canal Point tomorrow at noon with a luncheon honoring Miss McIntosh, her maids of honor, bridesmaids and out-of-town guests who have arrived early for the Aug. 21st wedding. The hostesses will use satin ribbons and hibiscus blossoms in carrying out the wedding bell and double ring motifs in the decorations.

Following the rehearsal for the Stubbs-McIntosh wedding at the First Methodist Church Saturday evening, Mrs. George M. McLarty of Lake Worth and her daughter, Mrs. David Bleach of Orlando, will entertain the members of the wedding party at a supper in the dining room of the Grassy Waters Motel.

Contract construction employment in Florida is 10.9 per cent below the year-ago level. The State Industrial Commission reports that the number of persons employed in contract construction this past May totaled 114,400 as compared with 128,400 in May, 1949.

## They're Glad They Were Dead Wrong

TALLAHASSEE — There are times when it makes the Florida Highway Patrol happy to be dead wrong.

One of those times was after this year's July 4th long holiday week-end.

The patrol took out its statistical pencil a few days before the holiday and, basing calculations on fatalities in previous years, predicted that 16 would die.

Actually only six persons died in traffic during that long period which began at 6 p. m. last Friday and lasted through Monday midnight.

"It was a pleasure to be WRONG on that one," declared Comdr. H. N. Kirkman, when tabulations were in. "We think that motorists played a major lifesaving role by being careful—and then too, we had all available men on the highways supplemented by Legion auxiliaries."

Although the National Safety Council said the past July 4th holiday was one of the deadliest insofar as accidental deaths were concerned, Florida was much lower than expected in traffic fatalities lower than any prediction since 1957, when eight lost their lives by means of an automobile.

## Motor Freight Rate Advanced Two Pct.

TALLAHASSEE—Motor freight rates on shipments between Florida points have advanced two per cent.

The State Railroad Commission has authorized trucking lines to raise their rates that amount pending final disposition by the commission of a petition for a 15 per cent permanent increase.

When petitioning for the 15 per cent increase, the trucklines asked interim authority to raise rates two per cent to defray cost rises due to wage boosts and increased tire prices.

## HOME FROM CANADA

Mrs. Kenneth Hitchcock returned the first of the week from a visit with relatives in Canada. Enroute home she also visited her son, Lance Cpl. J. L. (Rusty) Hall, at the U. S. Marine Corps base at Parris Island, S. C. She was accompanied on the trip by her daughter, Mrs. Charles Dickson, and children.

Penny Sasser has returned home from Deland where she attended summer school at Stetson University.

Mr. and Mrs. L. J. Fraser have gone to Houston, Texas, where Mr. Fraser entered a hospital for a medical check-up and treatment.

## Wood Pole Meeting Scheduled Aug. 23

GAINESVILLE—Current information on the inspection and maintenance of Southern Pine poles used by utility companies will be presented at the Southeastern Wood Pole Conference August 23-25 at the University of Florida.

The conference will be conducted by the General Extension Division of Florida and the School of Forestry at the University of Florida. Dr. Robert L. Fairing, head of the Extension Division's Department of Citizenship and Community Development, is the coordinator for the conference and J. B. Huffman, associate professor of forestry at the University of Florida, is in charge of the technical program for the conference.

Factors to be stressed during the conference include the practical methods of detecting deterioration in wood poles, the selecting of the best remedial treatment to prolong pole life, and the making of sound economic choices between ground-line treatment or pole replacement.

"Proper decisions based on these factors," Dr. Fairing said, "can extend pole life and save operating utilities many thousands of dollars."

Among those expected to attend the conference are managers, engineers, fiscal agents, purchasing agents and technical personnel in operating utilities, railroads, wood treating and chemical companies, and other large consumers of treated wood products.

Keynote speaker for the three-day meeting will be John W. Davis, assistant vice president of Southern Belle Telephone and Telegraph Co., Atlanta, Georgia. Davis' announced topic is "The Importance of Wood Pole Conferences."

Other speakers, nationally recognized in their respective fields, have been selected from private utilities, railroad companies, U. S. Forest Products Laboratory, Rural Electrification Administration, chemical companies and the University of Florida.

All sessions will meet in the air-conditioned auditorium of Dan McCarty Hall.

## Market Research Firm Established

MIAMI—On the 10th anniversary of its establishment, First Research Corp., Miami-based economic and market research firm, announced plans for construction of a new office building.

This will be the largest building in the Eastern U. S. occupied solely by a firm of this type.

The company, since its founding in 1950, has become the largest business consulting and market research firm in the Southeast. Its clients include corporations throughout the country as well as financial, governmental, real estate development, insurance, transportation, communications, public utility and other organizations.

## Talk about a Bargain...

Most people do! And nothing's handier for rounding up friends than the bargain you talk with — your telephone. Use it all you like to bring pleasure to yourself and others.
